H. R. COBURN'S OIL WORKS

ESTABLISHED 1842.

H. COBURN'S TALLOW OIL

Is of a quality superior to any yet introduced, giving a brighter, clearer and more powerful light, with a steadier exemption from smoke, and less liability to clog the wicks, than any other oil. In lighthouses and manufactories it has proved itself superior to sperm oil, and is warranted to burn longer under any circumstances, and the current flame thoroughly and effectually used.

This oil is a great favorite with engineers on railroads, and is used on the Boston & Maine, Eastern, Old Colony, Providence, Worcester, Western, Vermont & Massachusetts, Boston & Lowell, Nashua & Lowell, Concord, Cheshire, Connecticut River, Vermont Central, Rutland, Northern, Ogdensburg, Boston & Albany, Hartford & New Haven, Housatonic, Naugatuck, Harlem, Long Island, Hudson River, Erie, Michigan Southern, Michigan Central, Illinois Central, Galena & Chicago Union, Chicago & Rock Island, Chicago & Mississippi, Chicago & Milwaukie, Milwaukie & Mississippi, Milwaukie & Prairie du Chien, Chicago & Iowa, Chicago & Aurora, Peoria & Oquawka, Peoria & Bureau Valley, Pittsburgh, Fort Wayne & Chicago, Cleveland & Pittsburgh, Cleveland & Toledo, Cincinnati & Marietta, Cincinnati & Zanesville, Ohio & Mississippi, Marietta & Cincinnati, Little Miami, Columbus & Xenia, Columbus & Cincinnati Midland, Mad River & Lake Erie, Sandusky, Mansfield & Newark, Cincinnati, Wilmington & Zanesville, Cincinnati & Indiana, Indianapolis & Cincinnati, Madison & Indianapolis, Indianapolis & Lafayette, Terre Haute & Richmond, Terre Haute & Alton, Louisville & Nashville, Louisville & Frankfort, Louisville & Lexington, Louisville & Portland Canal, Louisville & Cincinnati, Louisville & New Albany, Louisville & Shelbyville, Louisville & Elizabethtown, Louisville & Henderson, Louisville & Hopkinsville, Louisville & Nashville, Nashville & Chattanooga, Nashville & Decatur, Memphis & Charleston, Memphis & Ohio, Mississippi Central, New Orleans, Jackson & Great Northern, Mississippi & Alabama, Alabama & Florida, Georgia, Central, Georgia, Southwestern, Macon & Western, Atlanta & Charleston, Charleston & Savannah, Wilmington & Manchester, Wilmington & Weldon, Petersburg, Richmond & Petersburg, Richmond & Danville, Richmond & Fredericksburg, Richmond & Potomac, Virginia Central, Orange & Alexandria, Manassas Gap, Baltimore & Ohio, Baltimore & Susquehanna, Baltimore & Washington, Philadelphia & Reading, Philadelphia & Wilmington, Philadelphia & Baltimore Central, Philadelphia & Trenton, Camden & Amboy, Delaware & Raritan Canal, New Jersey, Morris & Essex, Delaware, Lackawanna & Western, Pennsylvania Central, Sunbury & Erie, Northern Central, Lehigh Valley, Schuylkill Valley, Pottsville & Danville, Catawissa, Williamsport & Erie, Allegheny Valley, Pittsburgh & Connellsville, Pittsburgh & Steubenville, Ohio & Pennsylvania, Cleveland & Erie, Cleveland & Mahoning, Cleveland, Columbus & Cincinnati, Cleveland & Columbus, Cleveland & Toledo, Cleveland & Erie, Cleveland & Mahoning, Cleveland, Painesville & Ashtabula, Cleveland & Pittsburgh, Cleveland & Cincinnati

A New Eruption.

The Bangor Journal utter refusing to publish a letter of inquiry from the Fremont Committee which have elapsed since our State election, (the publication of which would have been a matter of much importance at that disastrous defeat of hunkerism was brought about) started off yesterday morning with a sudden and tremendous eruption upon the personal character of Mr. Fremont, in very marked contrast with its recent slumbering and dignified silence. It is now outbreaking and unrestrained—it is now out and out blackguardism, and the whole country will witness the lowering of its democratic supporters unless they shall speedily and by doing something to repel Straight Whigs from voting for Fremont.

The charges which the Journal brings against Fremont are of course the old ones first made by the Benton men with the statements made in regard to them by Benton, Mercer, and other personal enemies of Fremont, who were known of the ability, success and probity of his administration, and who pronounced it an honest administration, got him discharged from the army for technical irregularities of which the commanding officer at Fort Stockton—but Fremont himself, upon trial—entirely exculpated by President Polk's own [illegible]

[illegible] who purchased this property, devoted to ruin him by charges of the most gross swindling, and embezzlement of government property in connection with the cattle contracts made by Buchanan's agents—this Col Fremont was never prosecuted and acquitted—this Col Fremont who never pocketed a dollar of the charges made by Benton, but who paid over to Buchanan's agents every dollar received from the government for the cattle—this Col Fremont who has been slandered and maligned by the Benton men for the last eight years, and who has been sustained by the people of the whole country, is now charged by the Journal with having appropriated to his own use the money received from the government for the cattle, and with having refused to account for it.

Why is the Journal thus assailing Fremont? The fact is (and the Journal does not attempt to deny it) a committee of Congress [illegible] and reported to the House that Fremont was entitled to the money, and that the charges against him were unfounded. The Journal knows this, and knows that the House has endorsed the report of the Committee, and we quote below

[illegible]

The vouchers which have been presented and copies of which I have here are clear and satisfactory. It is not effectually shown that any part of $500 for which no vouchers are handed in has been paid. When Committees on Military Affairs called before them an officer of the army who was with Col Fremont, and requires to facts which ought to satisfy the House that every dollar has been accounted for

The charges that when a portion of this money Fremont purchased the Mariposa tract [illegible] are sufficiently answered by the statement of the Committee that every dollar was satisfactorily accounted for But we have a still more direct and explicit refutation

Mr Gorman said (see page 696 of vol. 26, Congressional Globe)

It was said that Col Fremont had got this $19 600 and bought the Mariposa land with it and a distinguished gentleman of this House told me he had heard that he had purchased a large amount of cattle with it upon which he had made large profits. Now the Mariposa land cost only $5000—though it turned out to be very valuable and worth for years fifty times what he paid for it. But the date of that purchase was anterior to the treasury on

As to the alleged purchase of a large amount of cattle and the grand speculation out of the operation I know did not see as to that charge? Did we solve it readily? No sir, we went into an investigation of it, and what was the result? *We found that he had purchased a certain amount of cattle for the use of the army but because he had not the means of paying for them he left the cattle in the possession of the vendor, who had finally taken them back for non payment so that transaction resulted in smoke as does the charge*

Here we have *official* testimony, quite as good as that of Col Mason (a personal enemy of Col Fremont) A committee of Congress investigated the whole matter, and reported through [illegible] chairman, (*four years after the date of Col Mason's letter*) that all the transactions passed in smoke as does the charge

Mr Gorman then proceeded to vindicate Col Fremont thus

I will say for Col Fremont that when I went into the investigation of this transaction I had some prejudice against him which I thought perhaps might be unfounded and which I am now satisfied were unfounded. The prejudices which had been impressed upon my mind I have been disposed by the investigation of all the [illegible] of Californians, and *I am prepared to say decidedly and to the satisfaction of the country and of his associates in the Senate* that Col Fremont is entitled to the credit of having rendered important services to the country in the acquisition of California, and *I am prepared to say decidedly* that he is entitled to the credit of having rendered important services to the country in the acquisition of California, and I am prepared to say decidedly

The Mechanics Fair in Boston was open for three weeks and visited by 100,000 people—the receipts were about $20,000.

A Virginia Mansion. We recently visited the residence of Joshua Coffin, Esq., the historian of Newbury, at his residence, and were much pleased in his antique house. The old mansion occupied by Mr. Coffin was erected in the year 1651, upwards of two centuries ago, has been kept in good order and will stand for centuries to come with proper care. The timbers are of oak, and the timbers and floors are of pine, unpainted, and somewhat unique, but tastefully arranged. The house faces the south, in front line being north and south. Mr. Coffin is the town Clerk of Newbury, the fourth person on that has held the office who was born in the house. His children are the seventh generation born under the same roof. A fact of rare occurrence in this country. That edifice was built by Tristram Coffin, who came over to New England from the Isle of Plymouth in Devonshire, England, 1642. At his death in 1681, he left 77 descendants.—Boston Transcript.

St. Mary's of Montreal (steamer) Niagara, Capt. Hall, has not been seen by an intelligent, observing and reliable person who has not come to the conclusion that the whole affair was a humbug, and that the letters threatening that the vessel would be burned for some religious persecution. The opinion is confident that no such letters were ever received by the captain of the vessel from the soldiers' monastery, or from any portion of the soldiers themselves, or any other person. If these suspicions are well founded, how terrible is the guilt of the man who, for some petty revenge has surprised so many human lives.

DISAGREEABLE AND PERSONABLE SQUIRE.—Mr. Robert Dickey, a master carpenter, of Dickeyburg, a mile from his home, since the 1st of October, 1855. It is supposed that he was murdered, which, in a temporary fit of insanity, he was led to do by working on the mind of his daughter-in-law, and his son Robert, of Pittsburgh, without a family.

The number of emigrants arriving in New York for the first nine months of 1856, was 200,000. This has been already and a large increase since 1855, when the number for a corresponding time was 2,000. The German emigration exceeds that of the Irish by about

Worth Reading.
WHEN, by long study and many experiments, a physician has discovered a new principle in medicine, by which pain may be removed and disease cured, more surely and effectively than before, it immediately becomes his duty so to bring it before the public as to give to all an opportunity to profit by his discovery. For this reason the proprietor of the genuine Allen Ointment and Syrup offers his preparations to all who are afflicted with Scrofula, Salt Rheum, Cancerous Humors, Fever Sores, Pimples, and other eruptions, with the assurance that in nearly every case where they have been tried they have effected permanent cures. Every agent can give reference to persons in his vicinity who have been cured by them.

Rooms---No. 1 Main Street.
THE subscribers have the pleasure of announcing to the citizens of Bangor and vicinity, that they have recently fitted up and elegant suite of Rooms in the City for making Ambrotypes!
The genuine Ambrotype, (among other things that distinguish it from all other pictures), is taken upon fine plate glass, upon which is placed another glass, the two being united by an indestructible gum, thus securing it from dust, dampness, or liability to fading from any cause. The picture can not very well be more than the ambrotype perfection, equal to the Daguerreotype, and are the only plain glass pictures that do not change.
The inside picture they keep for reference, and have them copied by this process.
The public are respectfully invited to examine the pictures at our Rooms.
Entrance next door North of No. 1 Main Street.

THE GREATEST MEDICAL DISCOVERY Of the Age.

DR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR,

From the worst Scrofula down to a common Pimple.

He has tried it in over 1100 cases, and never failed except in two cases; (both the undersigned.) He has now in his possession over two hundred certificates of its virtues, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the system.

Two bottles are warranted to cure running of the ears and boils on the hair.

Four to six bottles are warranted to cure corrupt and running tetters.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst cases of ringworm.

Two to three bottles are warranted to cure, the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst cases of scrofula.

A benefit is always experienced from the first bottle; and a perfect cure is warranted when the above quantity is taken.

Reader, I have died over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. Secure as water will extinguish fire, so is it with this cure humor. I never sold a bottle of it but that sold another, after a trial it always speaks for itself. There are two things about this here that appear to me surprising—first, that it is known in one place, in some cases to cure consumption, and yet it has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it, and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

So many have puffed, I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it, that I never suspected.

Several cases of epileptic fit—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are but few which are seen more of it than I have.

I know of several cases of Dropsy, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in Diseases of the Kidneys, for which discovery had done more good than any medicine ever known.

No change of diet ever necessary—eat the best you can get, and enough of it.

Directions for Use.—Adults one tablespoonful per day—Children over ten years, dessert spoonful—Children from five to eight years, teaspoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels once a day.

The Principal Office for the State of Maine and the British Provinces, is at the Drug and Medicine Establishment of B. H. HAY, 15 1-2, *Market Square, Portland, Maine*, to which all orders should be directed. Sold by respectable Druggists throughout the United States and British Provinces.

PRICE $1.00.

PROFESSOR WOODS'

HAIR RESTORATIVE

IS, no doubt, the most wonderful discovery of this age of progress, for it will restore, permanently, gray hair to its original color, cover the head of the bald with a luxuriant growth, remove at once all dandruff and itching, cure all scrofula, and other cutaneous eruptions, such as scald head, &c. It will prevent, by its magic, nervous or periodical headache; make the hair soft, glossy, and wavy, and preserve the color perfect. It and the hair from falling, to extreme old age. The following is from a distinguished member of the medical profession:

St. Paul, January 21, 1855.

Prof. WOODS—Dear Sir: I have used your Hair Restorative, and find it to be all you recommend it to be. After using it a short time, and having used it the hair to its natural extent, and having no baldness, no heroics or humbug to give to it, I placed my self in the hands of another, and had my head shaved, with a good and healthy growth of hair. Since then I have used your Restorative, and have restored the hair to its original color, and have a good growth of hair. I have recommended it to my friends, and they have used it with the same success. I have also been instrumental in having it introduced into this place, and it has ceased to come out immediately.

Respectfully yours, D. C. M. HURD.
Firm of Wood.

Carlisle, Illinois, June 19, 1855.

I have used Professor Woods' Hair Restorative, and have satisfied myself that it does what it recommends to do. My hair was becoming prematurely gray, but by the use of the Restorative it has resumed its original color, and I have no doubt, permanently so.

—FOR—

Purifying the Blood, removing all diseases arising from Excess of Mercury, errupture and impurities in life, chronic constitutional diseases, Cancerous Affections, Impure State of the Blood, and the only reliable and medical known remedy for the cure of Scrofula, Salt Rheum, Scald Head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Tetter, Pimples on the Face, and all scaly Eruptions of the Skin.

It is gratifying to the proprietor of these medicine to be able to state that it is now nearly three years since they were first introduced, during which time they have been extensively used in various parts of the United States, and have given satisfaction in the case in cases in which they have been employed, whether in town, country, hospital, or private practice, they have invariably given the most decided and unequivocal satisfaction, and proved the most salutary and beneficial preparations ever before introduced to the public. Numerous testimonials have been received from the most eminent physicians in the country, and from the professors of several medical colleges, recommending in the highest terms the use of these medicines and their superiority over all nostrums or preparations for a like complaint, as the proper remedies to be used in all cases where they are recommended. Numerous preparations of Sarsaparilla and Buchu, and various modes of preparing them have been given, all of which of course will differ according to the mode of preparation which each individual may adopt.

The medicines require no considerable care or trifle inspection, as the employment of different menstrua, in addition to operation to take up the extractive matters, and in consequence, are frequently improperly made, and not unfrequently much impaired, if not rendered totally worthless. The ignorance and unskillful management of many manufacturers in this particular, has given rise to the assertion that Sarsaparilla was worthless, and has in consequence brought into disrepute many preparations. I have recommended the preparations of Sarsaparilla and Buchu, as the highest and purest state they can be obtained in this country, and feel confident that they are the most reliable remedies for the purposes for which they are recommended. Numerous preparations of Sarsaparilla and Buchu, and various modes of preparing them have been given, all of which of course will differ according to the mode of preparation which each individual may adopt.
